Wilmington, IL 60481

Dear Mike,

This letter is to voice my support for the Operating Engineers Local 150 Crane Certification Program. We have several operators that have gone through the program and now are certified crane operators.

It is fortunate timing that Local 150 has this excellent training facility and crane safety program given the fact that there have been numerous crane accidents throughout the country these past few years and OSHA is now coming out with the new crane safety which include a operator crane certification requirements to be phased in.

Congratulations on your efforts in providing this program.

Sincerely,

Arthur J. Snyder
President
