

RE: Electronic Engine Controls

Mike,

Had the opportunity to sit in couple days with instructors Brian R and Mark O on above class (I'm weak in electronics). Having had the opportunity to instruct in the past, I just wanted to pass on how impressed I was with their knowledge, delivery, and professionalism during their instruction.

More importantly; in our "sidebar" discussions, you can see their passion for their field and ideas exploding on how to continue improving the courses. Certainly the mark of a program that isn't complacent and charging forward. Be assured I will spread the word to our contractors.

Semper Fi,
