Dear Brother Rorex:

Thank you very much for hosting the recent NTF H&P Training Advisory Committee meeting. Your help, along with the contributions of the ASIP staff, contributed greatly to a very productive session. This was significant since the advisory meeting was the first to be held at a local training facility.

The facility itself was outstanding but my favorable impression extends especially to the staff, instructors and students I encountered. There was a real sense that high standards were demanded and that everybody was striving to achieve them. This spirit of craft pride reflects very well on Local 150.

Your willingness to share time and resources is much appreciated. I'm very glad I had the chance to visit and observe the good things you are doing.

Fraternally,

Jeff Vincent
